

Oleksandr Bodrov

Experienced Senior React Developer with 9 years of dedicated web UI expertise, specializing in React and TypeScript. I've successfully contributed to both enterprise and startup projects, prioritizing client and user satisfaction. My adaptable skills have seen me in roles such as Web UI Developer, Team Lead, DevOps, Full Stack Engineer, and Scrum Master. A collaborative team player, I thrive on effective communication to deliver top-notch products. My passion lies in pushing the limits of React development to consistently enhance project outcomes and user experiences.
